SILICONE LARYNGEAL MASK TUBE

Fortune® Silicone Laryngeal Mask Tube (LMT-Standard) Features:

- 100% medical grade silicone for superior biocompatibility.
- Disposable.
- X-ray opaque line works both for confirmation of intubated tube.
- X-ray opaque line also works as a reference line for insertion angle.
- Ribbed structure throughout the internal lumen to minimize friction.
- Soft and low friction cuff reduces intubation difficulty and provides excellent sealing and patient comfort.
- Non-epiglottis-bar design provides easy and clear access through the lumen.
- Smooth yet firm back plate of the cuff facilitates insertion.
- Unique embedded inflation line merged into the tube, which lessens extra care handling during insertion and avoids accident damage by teeth or on-site instrument.

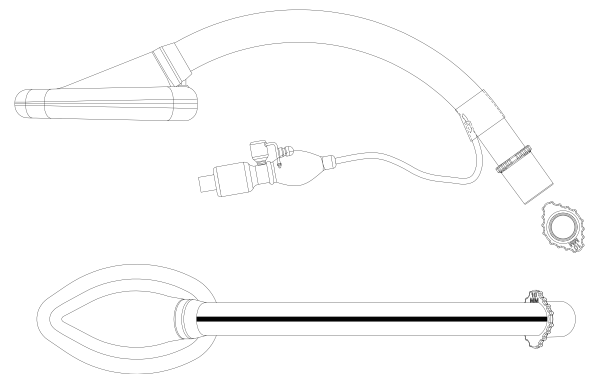

SILICONE LARYNGEAL MASK TUBE

SPECIFICATIONS
